Stump Water

By PENN JONES JR.

Yours truly has an article in the current issue of SAGA MAGAZINE, on the news stands now.

The article was submitted a year ago, so it is a little out of date. In the article we record thirty-two strange deaths. The current number on our list is 47.

A little further news on assassination subjects:

We plan to be in Dallas at the assassination site at 12:30 on November 22. Then the family will fly to Lubbock where we will participate in a debate with a Professor Lowell Blaisdell. He will be defending the Warren Commission.

This debate is to be chaired by Editor Greg Olds, Editor of The Texas Observer.
